

# The Inside Story

## How Volito and Chore-Time Came Together

Let's grow together®

Chore-Time's parent company, CTB, Inc., acquired Volito in 2016 in order to bring Volito's products and expertise to the rapidly emerging U.S. cage-free market through Chore-Time's distribution network.

Founded in 1989, Volito brought over 25 years of industry experience in cage-free egg production systems to Chore-Time at the time Volito was acquired. The Dutch company began with aviaries in 1989 and soon added a line of nesting products for floor production to its cage-free system offering.

Volito grew methodically over the years by adding metal fabrication capabilities to manufacture aviary systems and, later, wood fabrication for wooden nest components. Today Chore-Time's unit in Veenendaal, as Volito has come to be known, holds an enviable position in the EU market for cage-free products.

As part of its partnership with Chore-Time, Volito quickly introduced a new floor layer nest designed specifically to meet the demands of the U.S. floor layer market. Along with the nest, Chore-Time is proud to offer Volito's highly successful pullet and production aviary systems to the U.S. cage-free market.

Count on Chore-Time for experience, reliability, performance and confidence.

Example of aviary system for cage-free egg production

Volito's aviary products for pullets and layers have been refined through the years, and today's product line includes patented designs for outstanding bird care and performance. In addition, Volito's years of cage-free bird management expertise help to provide U.S. growers with invaluable training and support.

Volito's proven cage-free product line and cage-free bird management expertise joined with Chore-Time's leadership in feeding and ventilation technology create a strong total egg production equipment package. This, backed by Chore-Time's team of capable independent distributors, means that egg producers can choose Chore-Time's cage-free products with confidence.
