## Owner/Operator Manual

### FOR YOUR SAFETY

If you smell gas:

1. Open windows.
2. Don't touch electrical switches.
3. Extinguish any open flame.
4. Immediately call your gas supplier.

### POUR VOTRE SURETE

Si vous sentez une odeur de gaz:

1. Ouverz les fenêtres.
2. Ne touchez pas aux de commutateurs électriques.
3. Eteindre n'importe quelle ouverture flambe.
4. Immédiatement appeler votre fournisseur de gaz.

### FOR YOUR SAFETY

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

### POUR VOTRE SURETE

Pas l'essence de magasin ou usage ou les autres vapeurs et les liquides inflammables à proximité de cet ou l'autre appareil.

**Note:** The original, authoritative version of this manual is the English version produced by CTB, Inc. or any of its subsidiaries or divisions, (hereafter collectively referred to as "CTB"). Subsequent changes to any manual made by any third party have not been reviewed nor authenticated by CTB. Such changes may include, but are not limited to, translation into languages other than English, and additions to or deletions from the original content. CTB disclaims responsibility for any and all damages, injuries, warranty claims and/or any other claims of any nature associated with such changes, inasmuch as such changes result in content that is different from the authoritative CTB-published English version of the manual. For current product installation and operation information, please contact the customer service and/or technical service departments of the appropriate CTB subsidiary or division. Should you observe any questionable content in any manual, please notify CTB immediately in writing directed to: CTB Legal Department, P.O. Box 2000, Milford, IN 46542-2000 USA.

## **WARNING !**

**SERIOUS PERSONAL INJURY AND/OR DEATH MAY RESULT FROM USE OF THIS HEATER  
IN AN UNVENTILATED BUILDING OR IN HUMAN LIVING AREAS.**

**LE RESULTAT DE MAIS DE MORT DE ET/OU DE BLESSURE PERSONNEL SERIEUX DE L'USAGE  
DE CET APPAREIL DE CHAUFFAGE DANS UN CONSTRUISANT UNVENTILATED OU DANS L'HU-  
MAIN SECTEURS VIVANTS**

**EL USO DE ESTA CALENTADORA EN UN EDIFICIO SIN VENTILACIÓN O EN UNA AREA  
HUMANA PUEDE RESULTAR EN ENFERMEDAD Y/O MUERTE**

**⚠** Do not use the heater to heat human living areas. The intended use of the heater is to provide warmth for poultry and hog buildings. Adequate ventilation must be provided.

**⚠** Ne pas utiliser l'appareil de chauffage pour chauffer humain habiter les secteurs. L'usage voulu de l'appareil de chauffage sera obligé à fournir la chaleur pour les bâtiments de volaille et cochon. La ventilation suffisante doit être fournie.

**⚠** Use only the type of gas being supplied to the unit as marked on it (Propane or Natural Gas). Do not operate with improper fuel. Ventilation air and combustion air must not be obstructed.

**⚠** Utiliser seulement le type de gaz étant fourni à l'unité comme marqué dessus (le Propane ou le Gaz Naturel). Ne pas fonctionner avec le carburant déplacé. L'air de ventilation et l'air de combustion ne doivent pas être encombrés.

**⚠** Test all pipe and pipe joints for leaks by a suitable means (Example: soap and water solution or a pressure check). Do not use open flame to test for gas leaks. Do not operate the heater until this test has been performed.

**⚠** Essayer tous joints de tuyau et tuyau pour les fuites par un moyens convenables Pas l'usage ouvre la flamme pour essayer pour les fuites de gaz. (l'Exemple : la solution de savon et eau ou un contrôle de pression). Ne pas fonctionner l'appareil de chauffage jusqu'à ce que ce test a été préformé.

**⚠** Do not move, handle, repair, or adjust height of the heater while in operation or when still hot. Do not bypass any safety devices.

**⚠** Pas le mouvement, la poignée, la réparation, ou ajuster la hauteur de l'appareil de chauffage pendant que dans l'opération ou quand calme chaud. Ne pas sauter d'appareils de sûreté.

**⚠** Before each use, a visual inspection of the heater is essential to insure safe and satisfactory heating. Replace or repair defective components before operating heater. Failure to do so will void warranty and could result in injury or property damage.

**⚠** Avant que chaque usage, une inspection visuelle de l'appareil de chauffage est essentielle pour assurer le chauffage sûr et satisfaisant. Remplacer ou réparer des composants le défectueux avant de fonctionner appareil de chauffage. L'échec pour ainsi faire annulera la garantie et pourrait avoir pour résultat les dommages de blessure ou propriété.

**⚠** The installation of these appliances is to be in accordance with CAN/CGA-B149., B149.2 and National Fuel Gas Code, ANSI 2223.1/NFPA 54 installation codes for gas burning appliances and equipment and/or local codes.

**⚠** L'installation de ces appareils sera obligé à être conformément à CAN/CGA-B149.1, B149.2 et Code de Gaz de Carburant National, ANSI 2223.1/NFPA 54 codes d'installation pour le gaz appareils ardents et et/ou d'équipement codes locaux.

**⚠** WARNING: Improper installation, adjustment, alteration, service or maintenance could cause property damage, injury or death. Read the installation, operating and maintenance instructions thoroughly before installing or servicing this equipment.

**⚠** L'AVERTISSEMENT : l'installation Déplacée, l'ajustement, le changement, le service ou l'entretien peuvent causer les dommages de propriété, la blessure ou la mort. Lire l'installation,fonctionnant et les instructions d'entretien à fond avant d'installer ou entretenir cet équipement.

**⚠** WARNING Failure to follow the WARNINGS in this manual could result in serious personal injury or significant property damage.

**THESE INSTRUCTIONS SHOULD BE LEFT WITH THE APPLIANCE AND THE USER  
TO RETAIN FOR FUTURE REFERENCE.**

**READ THESE INSTRUCTIONS THOROUGHLY BEFORE INSTALLING, USING OR  
SERVICING THIS EQUIPMENT.**

**⚠ Before lighting, sniff all around the appliance area for a gas odor. Be sure to sniff next to the floor because propane gas is heavier than air and may temporarily exist at floor level.**

Avant d'allumer, renifle tout autour le secteur d'appareil pour une odeur de gaz. Etre sûr de renifler à côté du plancher parce que le gaz de propane est plus lourd que l'air et peut exister temporairement au niveau de plancher.

Antes encender, huele por todas partes el área de aparato para un olor de gas. Esté seguro oler junto al gas de piso porque propano está más pesado que aéreo y puede existir temporalmente en el nivel de piso.

**⚠ DO NOT ALLOW POWER CORDS AND/OR GAS SUPPLY HOSES TO REST ON THE CANOPY, HANGING BRACKETS OR OTHER HOT SURFACES OF THE UNIT OR TO COME WITHIN 12" OF THE HEATER.**

Ne pas permettre tuyaux à la provision de gaz de et/ou de cordes de pouvoir pour se reposer sur le baldaquin, pendant des crochets ou les autres surfaces chaudes de l'unité Ou venir dans 12' de l'appareil de chauffage.

No permita cuerdas de poder y/o mangas de suministro de gas para descansar en el dosel, colgando paréntesis u otras superficies calientes de la unidad O para venir dentro de 12' de la calentadora..

**⚠ DSI UNITS MUST BE PROPERLY GROUNDED. DO NOT ALTER ELECTRICAL CORD.**

LES UNITES DE DSI DOIVENT ETRE CONVENABLEMENT FONDE. Ne PAS CHANGER LA CORDE ELECTRIQUE.

Las UNIDADES de DSI se DEBEN PONER EN TIERRA APROPIADAMENTE. No ALTERE CUERDA ELECTRICA.

**⚠ Plug in the three-prong power cord to a correctly grounded three-prong electrical outlet.**

Brancher sur le cordon d'alimentation de trois-broche à un a fondé correctement la trois-broche sortie électrique.

Conecte la cuerda de tres polos del poder a un molió correctamente salida eléctrica de tres polos.

**⚠ The installation of this appliance must in all cases conform with local and national building codes or in the absence of local codes with the current National Fuel Gas Code ANSI Z223.1/NFPA 54, or the Natural Gas and Propane Installation Codes, CSA B149.1 and B149.2.**

L'installation de cet appareil doit dans tous cas conforme avec les codes de bâtiment locaux et nationaux ou en l'absence de codes locaux avec le Carburant le Gaz le Code ANSI Z223.1/NFPA National actuel 54, ou le Gaz Naturels et le Codes d'Installation de Propane, CSA B149.1, B149.2

La instalación de este aparato debe en todos casos se conforma con códigos locales y nacionales de edificio o en ausencia de códigos locales con el Código Nacional actual de Gas de Combustible ANSI Z223.1/NFPA 54, o el Gas natural y Códigos de Instalación de Propano, CSA B149.1, B149.2

**⚠ Heaters must be electrically grounded in accordance with the National Electrical Code, ANSI/NFPA 70 or the current Canadian Electrical Code, CSA C22.1. Polarity of Line voltage and neutral wires must be maintained. The total load of all heaters in a circuit must be considered for overload control of that circuit.**

Les appareils de chauffage doivent être électriquement fondé conformément au Code Electrique National, ANSI/NFPA 70 ou le Code Electrique, canadien et actuel, CSA C22.1. La polarité de tension de Ligne et de fils neutres doit être maintenue. Le chargement total de tous appareils de chauffage dans un circuit doit être considéré pour le contrôle de surcharge de ce circuit.

Las calentadoras basado en eléctricamente la conformidad con el Código Eléctrico Nacional, ANSI/NFPA 70 o el Código Eléctrico, canadiense y actual, CSA C22.1. La polaridad del voltaje de la Línea y alambres neutrales se debe mantener. La carga total de todas calentadoras en un circuito se debe considerar para el control de sobrecarga de ese circuito.

# QUADRADIANT™

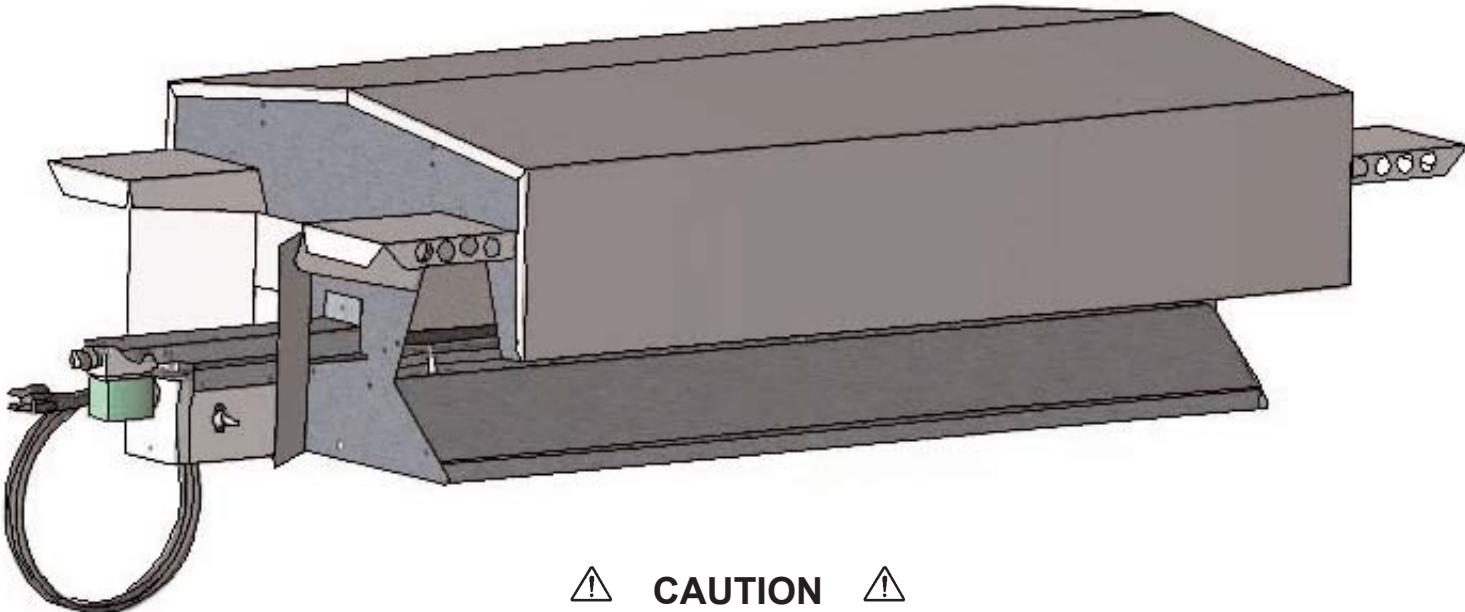

80,000 BTU High Pressure Heater  
120 v  
Maximum 5 PSI GAS

## WARNING:

During normal operation, the surfaces of the unit become very hot. It is VERY IMPORTANT that the power cords and gas supply hoses DO NOT TOUCH or REST ON ANY surface of the unit or to come within 12" of the heater.

The area directly above the unit becomes hot during normal operation of the heater. DO NOT install electrical wiring or conduit above the heater. DO NOT run gas supply hoses above the heater.

## CAUTION

**DO NOT ALLOW ANYONE WHO HAS NOT READ THESE  
INSTRUCTIONS TO INSTALL, ASSEMBLE, LIGHT, ADJUST OR  
OPERATE THIS HEATER.**

**THIS HEATER IS TO BE INSTALLED BY CERTIFIED INSTALLERS ONLY.**

**ONLY PERSONS WHO CAN UNDERSTAND AND FOLLOW THESE  
INSTRUCTIONS SHOULD USE OR SERVICE THIS HEATER.**

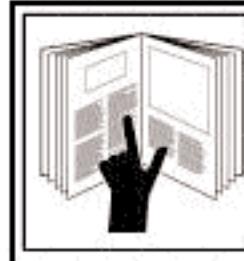

**HEATER IS SHIPPED PRE-ASSEMBLED**

**TOOLS REQUIRED FOR INSTALLING HEATER:**

3/4" wrench for tightening gas connections.

11/16" wrench

2 Pipe wrenches

## WARNING

Failure to read and understand operator's manual and all safety signs could result in serious injury. Manual must remain with equipment.

# WARNING

**5 PSI MAXIMUM OUTLET PRESSURE.  
GAS PRESSURE EXCEEDING 5 PSI MAY VOID  
WARRANTY.**  
**USE THREADED GAS CONNECTIONS ONLY.  
HEATER MUST BE CONNECTED TO GAS SUPPLY  
USING THE DRIP LEG, HOSE AND CONNECTORS  
PROVIDED WITH THE UNIT BY THE  
MANUFACTURER.**

If a longer gas hose is needed, a 6' gas hose kit may be purchased.

16550039 HOSE ASM W/ FITTING

This kit contains the following two parts:

16000104 HOSE GAS 1/4ID 3/8 X 3/8

16050030 CONN 3/8FPT X 3/8 FLARE

⚠ THE STATE OF CALIFORNIA REQUIRES THE FOLLOWING WARNING:  
WARNING

Combustion by-products produced when using this product contain carbon monoxide, a chemical known to the State of California to cause cancer and birth defects (or other reproductive harm).

⚠ CAUTION

THIS APPLIANCE IS HOT DURING NORMAL OPERATION. AVOID PHYSICAL CONTACT.

CET APPAREIL A CHAUD PENDANT L'OPERATION NORMALE. EVITER LE CONTACT PHYSIQUE.

ESTE APARATO TIENE CALOR DURANTE la OPERACION NORMAL. EVITE el CONTACTO FISICO.

⚠ DANGER

DO NOT ATTEMPT TO CLEAN THE HEATER WHILE IT IS OPERATING OR WHILE IT IS STILL HOT.

Ne PAS TENTER DE NETTOYER L'APPAREIL DE CHAUFFAGE PENDANT QU'IL FONCTIONNE OU PENDANT QUE C'EST TOUJOURS CHAUD.

No PROCURE LIMPIAR LA CALENTADORA MIENTRAS OPERA O MIENTRAS ESTA TODAVIA CALIENTE.

Install drip leg on gas line.

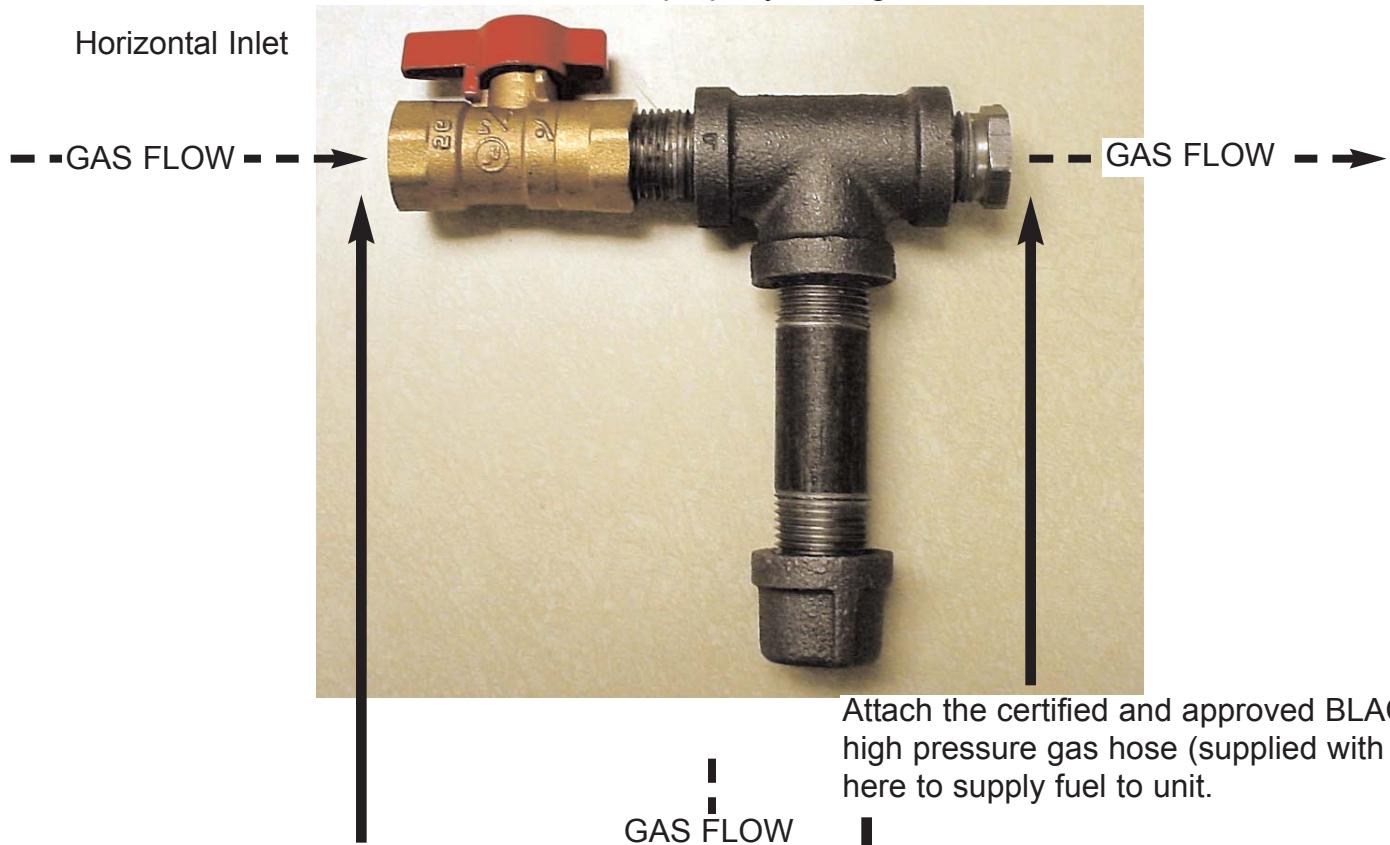

The manufacturer requires the installation of the drip leg in order to help keep the gas orifice free from debris commonly found in gas lines. Use approved certified and sealant on all connections.

**WARNING!**

Failure to follow the instructions in this manual could result in serious personal injury or property damage.

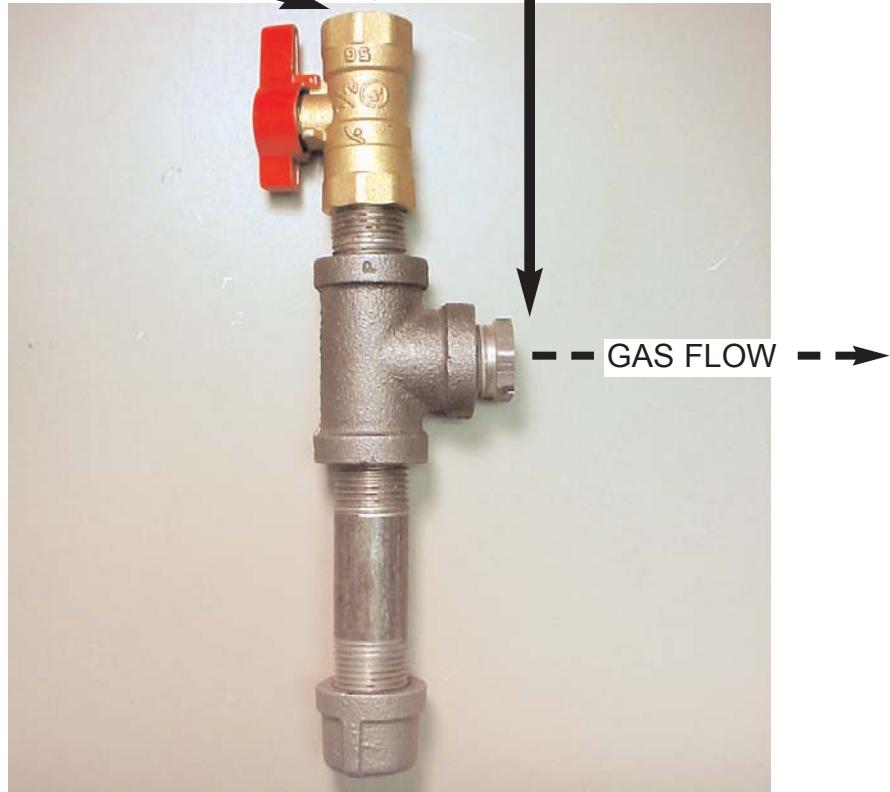

Horizontal Inlet

Attach the certified and approved BLACK high pressure gas hose (supplied with unit) here to supply fuel to unit.

Attach to main gas supply here.

Vertical Inlet

For Componet List,  
see page 22.

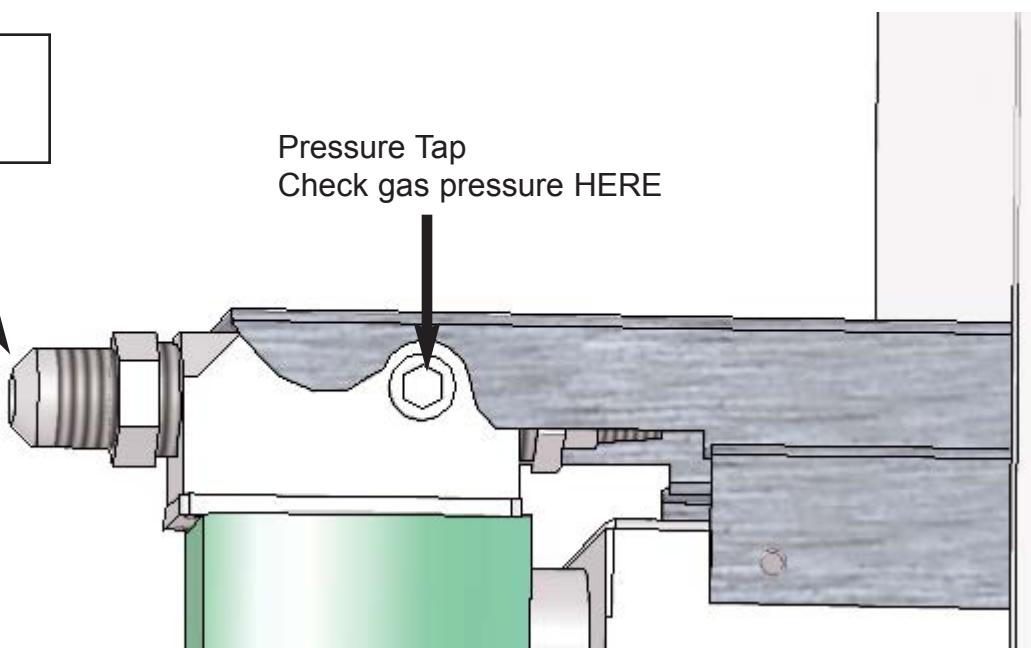

Remove adapter from drip leg parts bag. Apply certified and approved gas sealant to threads and insert into gas valve as shown. Take care to not get sealant inside of adapter. Piping joint compound must be resistant to the action of liquefied petroleum gases. In order to avoid loosening other connections when installing the adapter, tighten using a wrench on the adapter and one on the valve.

Check fitting for leaks. **Do Not Use** an open flame to check for leaks.

Use only the connections and/or fittings supplied with the unit.

**Attach swivel end of certified and approved BLACK high pressure gas hose  
(supplied with unit) to valve.  
Tighten using 3/4" and 11/16" wrenches.**

**GAS SUPPLY INLET**  
part # 11000058  
ADAPTR 3/8"MPT X 3/8"MF

**CAUTION:** Before attaching heater to gas supply line, purge gas supply line to free the supply of any contaminants.

CONNECT THE GAS HOSE TO THE CONTROL VALVE.

Turn on gas supply to the unit and **CHECK ALL FITTINGS AND CONNECTIONS FOR LEAKS** with a Gas Sensing Meter and /or soap solution. Do Not Use an open flame to check for gas leaks.

**Note:** the burner connections can only be checked with the burner burning.

**GAS PRESSURE** - should be CHECKED AND ADJUSTED to recommended settings. **Pressure exceeding 5 P.S.I. could void warranty.**

#### **GAS Pressure:**

**FIRST** - go to the furthest stove from the regulator and connect the pressure gauge to the Pressure Tap on the gas valve. Light only the stove you are testing or if you have a zone system light all the stoves in the zone. Set the pressure at a maximum of 5 P.S.I..

**SECOND** - light all stoves in the house on the same regulator and check the pressure again. The pressure should not drop below 4.5 P.S.I.. If the pressure does fall below 4.5 P.S.I., then the gas distribution system is inadequately designed. The problem may be a regulator, pipe sizing, etc.

## SUSPENDING THE HEATER

**NOTE:** We recommend that the heater be installed level. Keep gas hose away from hot surfaces.  
The heater is attached to a winch cable used for raising and lowering.

**In addition, a safety cable or chain (not supplied) is required to be attached to the suspension hooks to prevent the heater from falling to the litter if the cable should happen to break.**

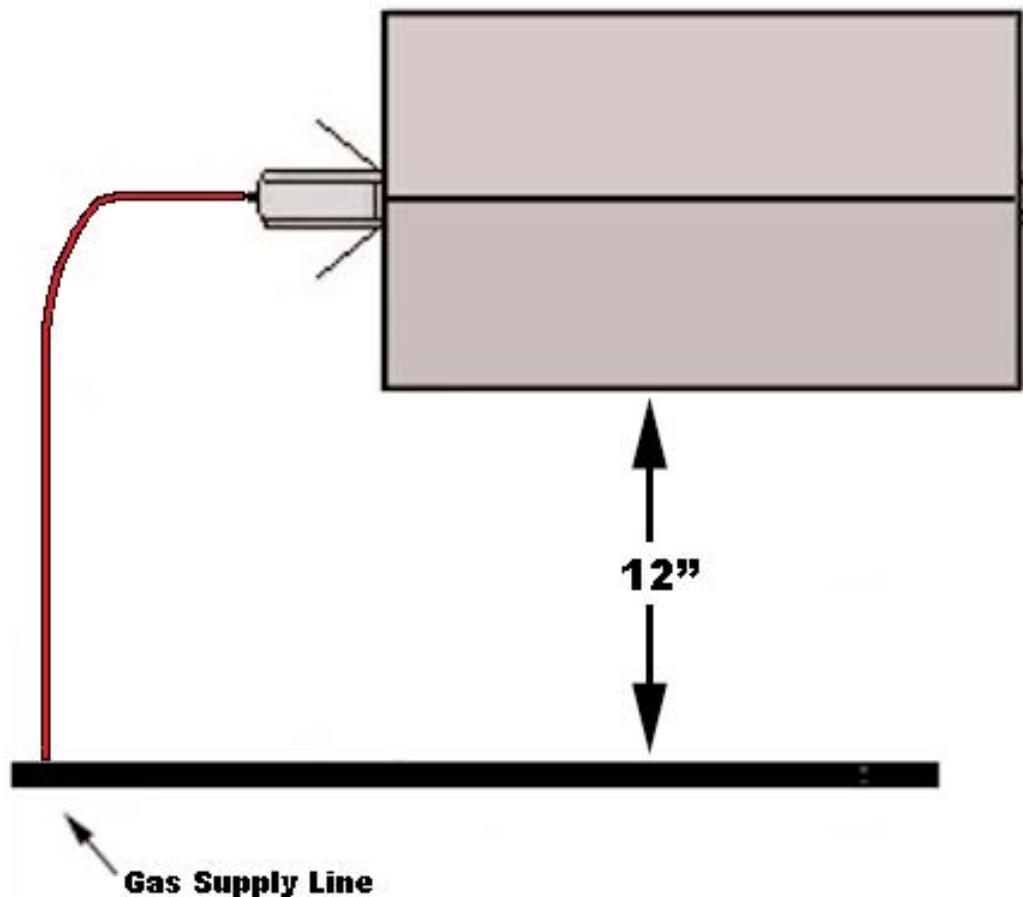

## HEATER SAFETY CLEARANCE

The heater must be located so there is a minimum clearance to combustible material of 24" (minimum of 12" if heat deflectors are used) above the heater and 48" from the side.

The heater should be hung with a min. of 72" from the bottom of the heater to the floor.

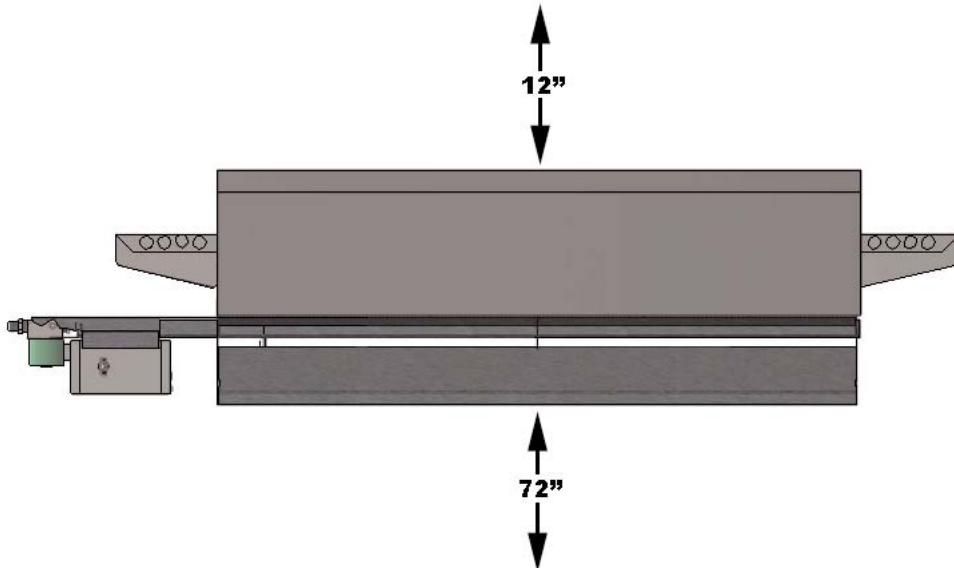

We require a minimum clearance of 12" from the heater to the fuel supply line.

The installer **MUST** comply with all applicable local, state, and federal gas codes and regulations for your area.

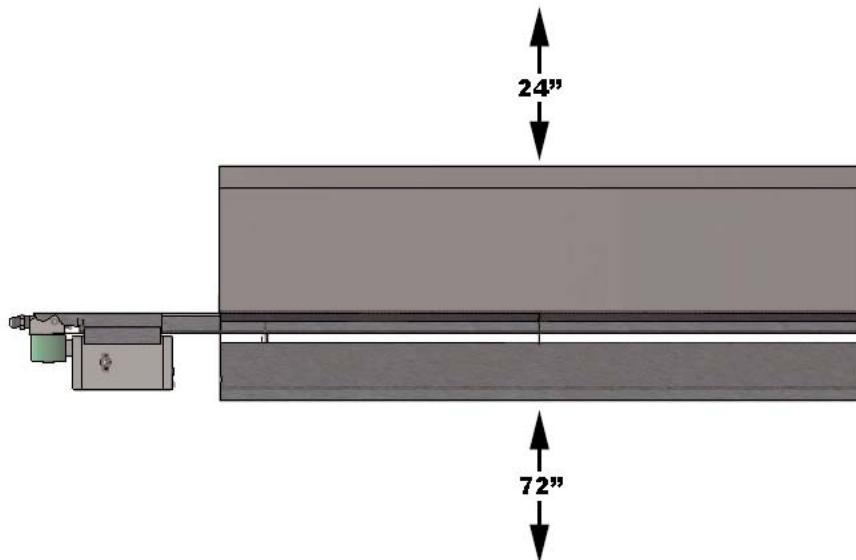

Sensor should be placed over the feeder or drinker line. Suspend sensor 12" to 16" off the floor. Sensor should be no more than 10-12 feet to the side from the center or 10 feet lengthwise from the center of the heater.

## WITH DEFLECTORS

## MISSING DEFLECTORS

This is only a temporary adjustment. Heaters REQUIRE the installation of HEAT DEFLECTORS.

## CONNECTING HEATER TO THERMOSTATICALLY CONTROLLED POWER SUPPLY

Insert grounded plug into 120 volt controlled electrical outlet.

### **WARNING!**

Do not allow power cords and/or gas supply hoses to rest on the canopy, hanging brackets or any other hot surfaces of the unit or within 12" of the heater. Failure to follow these instructions could result in serious personal injury or significant property damage.

### **WARNING!**

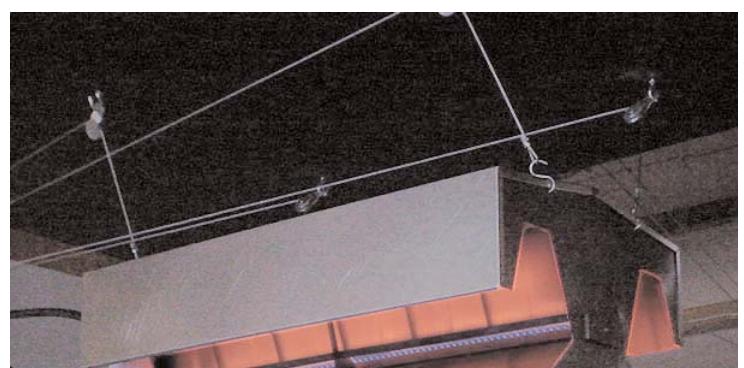

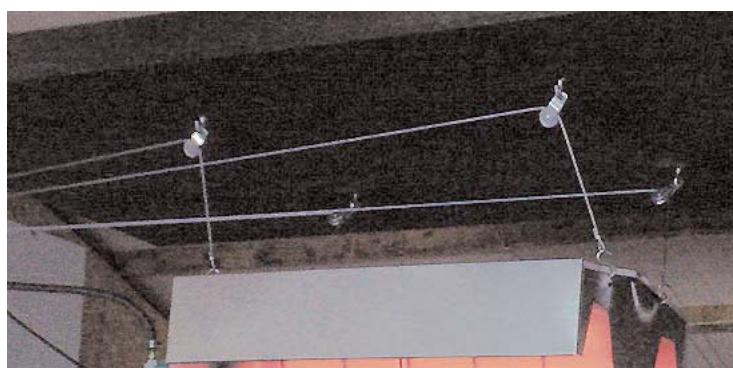

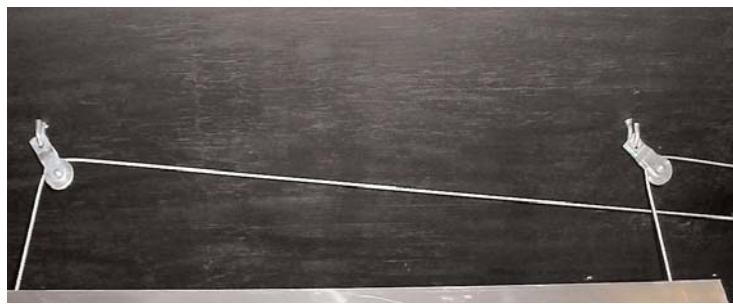

Failure to follow the instructions in this manual could result in serious personal injury or property damage.

### **WARNING!**

Failure to comply with all applicable local, state, and federal gas codes could result in serious personal injury and/or serious property damage.

Pulleys should be mounted in the ceiling and positioned 6" wider than the s-hooks that support the heater.

**NOTE:** Do not mount this heater directly below electrical wiring that is exposed or in conduit.

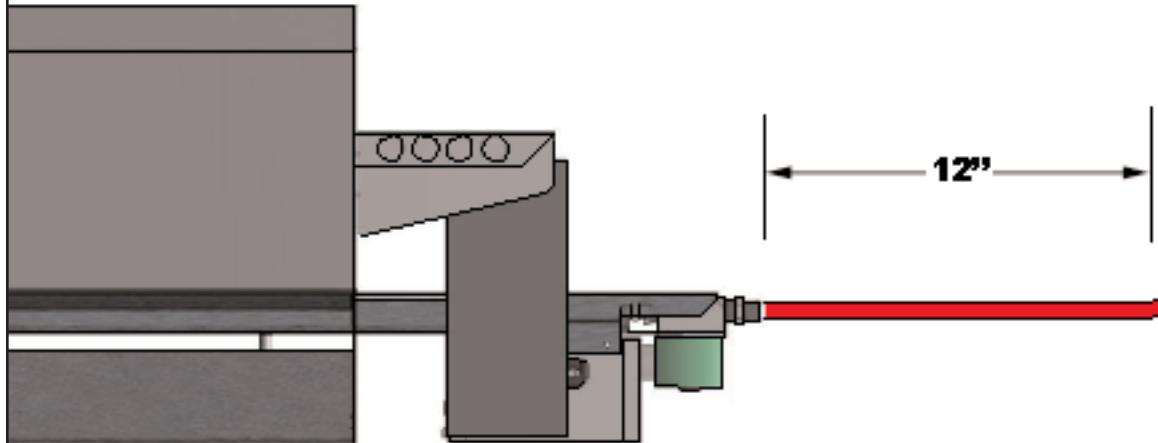

**NOTE:** During and after winching, make certain that ALL hoses and power supply cords are NOT resting on the heater nor are within 12" of the heater.

## AIR MOVEMENT

Position heaters so there is no direct air movement on the heater.  
Stir fans, inlets and tunnel doors should not blow directly on the units (During minimum ventilation, lock off inlets that affect heater operation.)  
Check all heaters to be sure flame is not blowing outside the emitter.  
Do not run heaters during tunnel ventilation.

The gas supply inlet must be installed so that the gas supply hose is away from the surface of the heater.  
Electrical supply must be installed so that the electrical power cord is away from the surface of the unit.  
The gas supply hose and the electrical power cord must not touch or rest on any surface of the heater during operation of the unit or rest on the unit while the heater is being winched up or down.

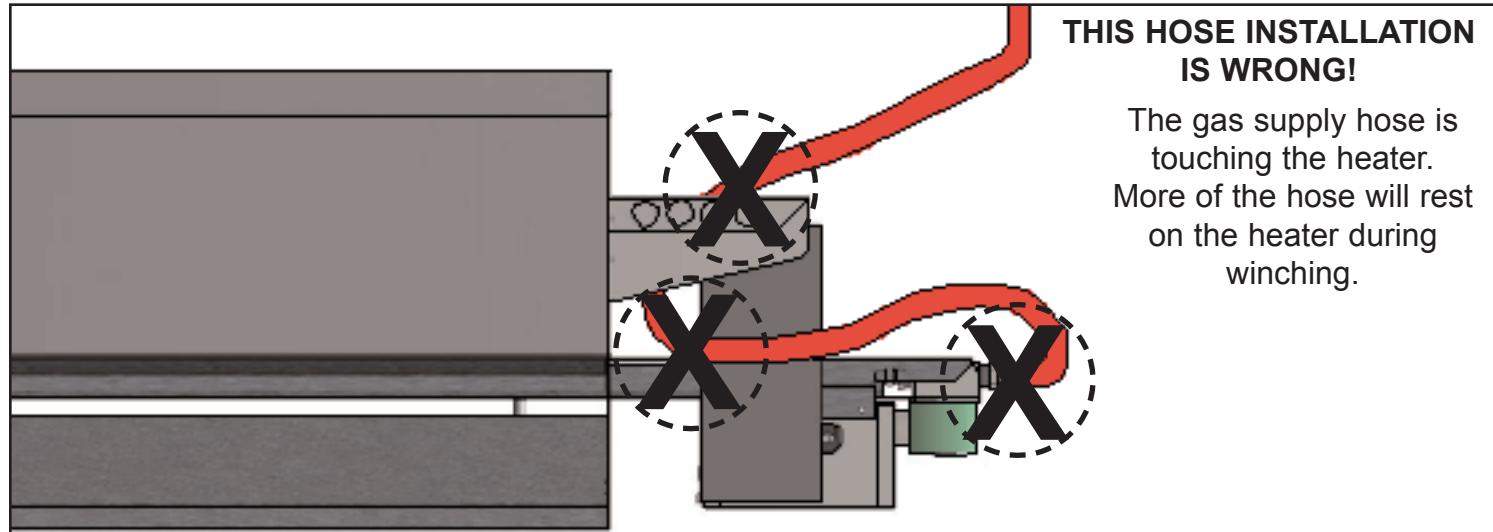

**THIS HOSE INSTALLATION  
IS CORRECT**

The gas supply installation shown in the illustration above allows the gas supply hose to hang AWAY from the surfaces of the heater even during winching of the unit.  
This is the CORRECT method for installing the gas supply hose.

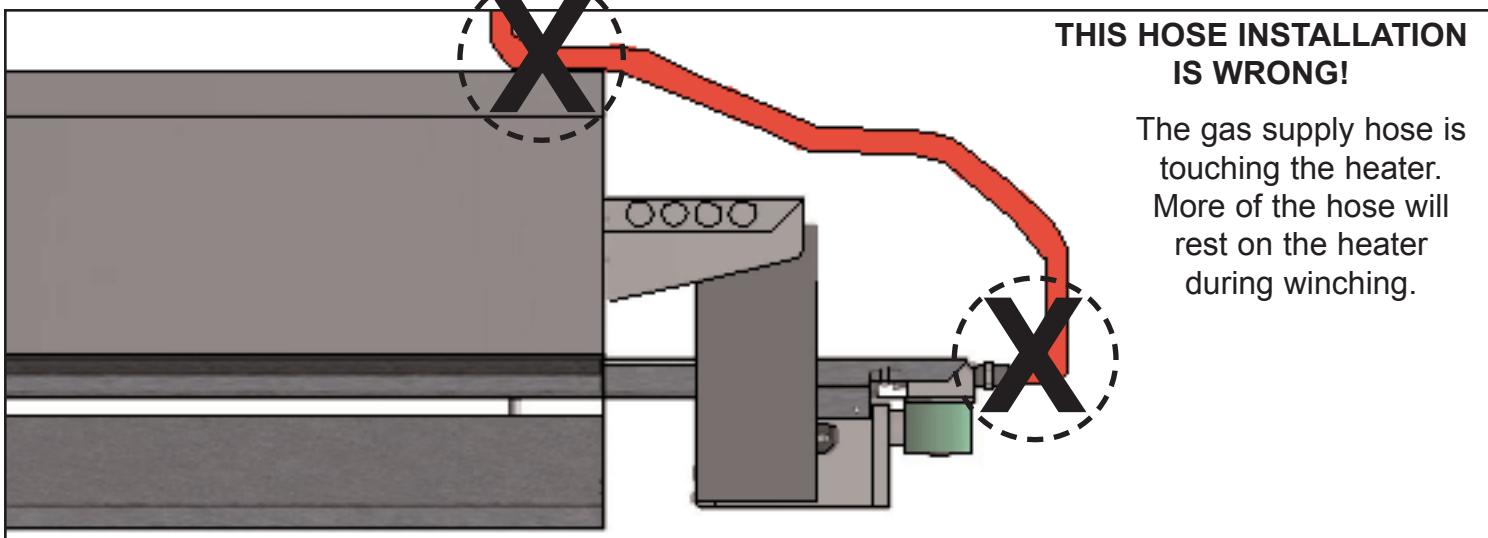

**THIS HOSE INSTALLATION  
IS WRONG!**

The gas supply hose is touching the heater.  
More of the hose will rest on the heater during  
winching.

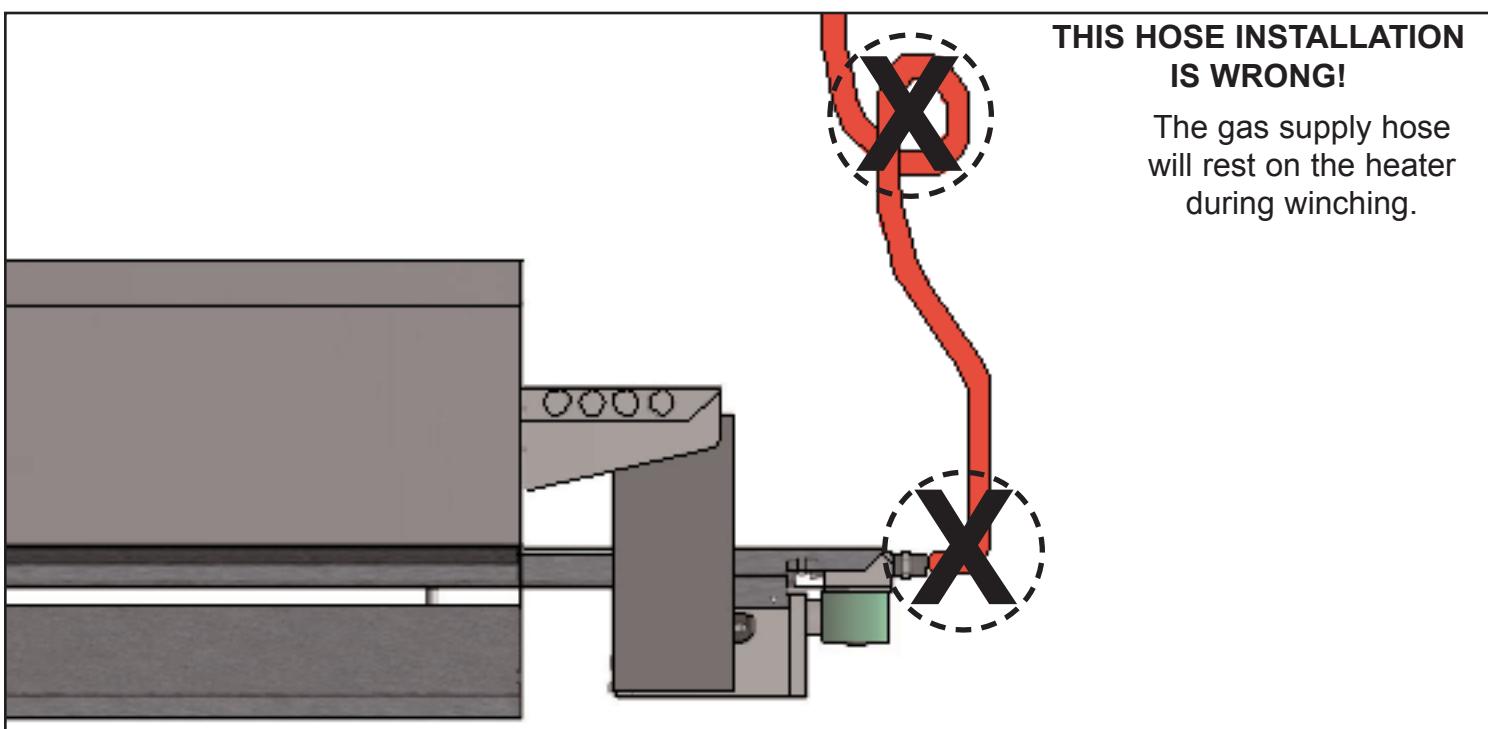

**THIS HOSE INSTALLATION  
IS WRONG!**

The gas supply hose is touching the heater.  
More of the hose will rest on the heater  
during winching.

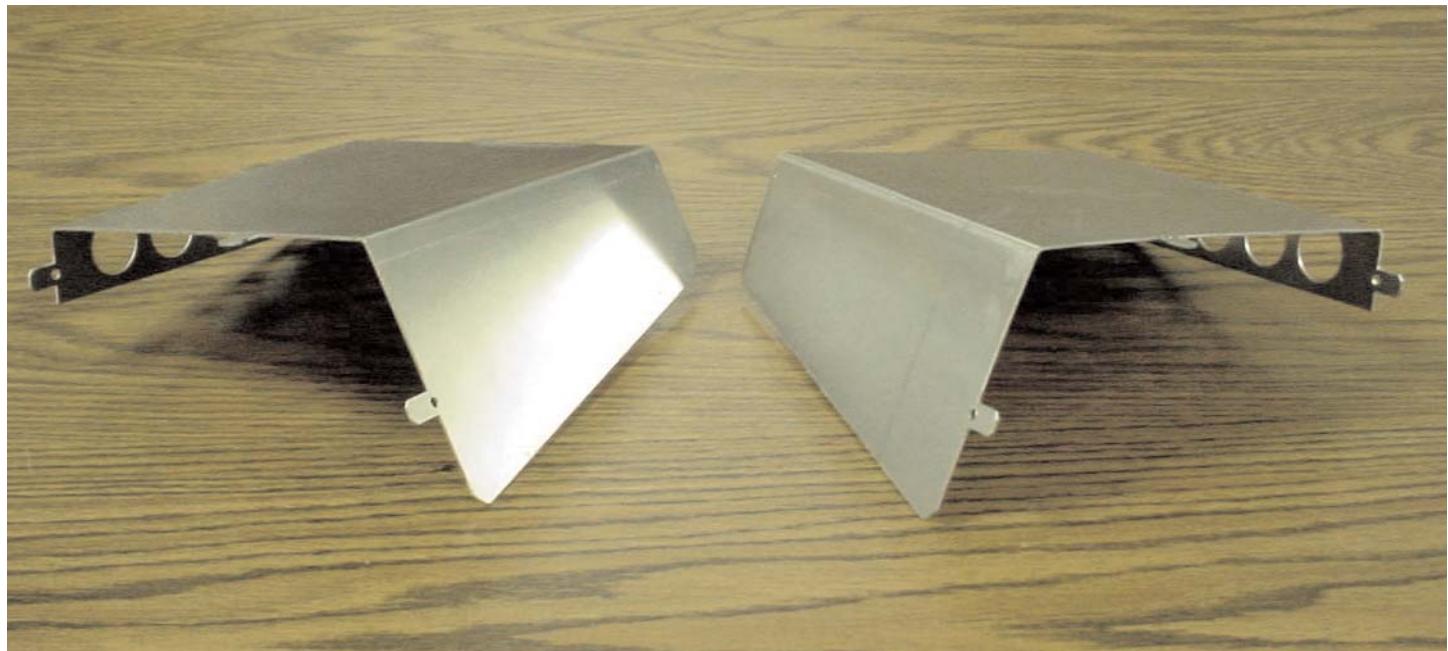

**THIS HOSE INSTALLATION  
IS WRONG!**

The gas supply hose  
will rest on the heater  
during winching.

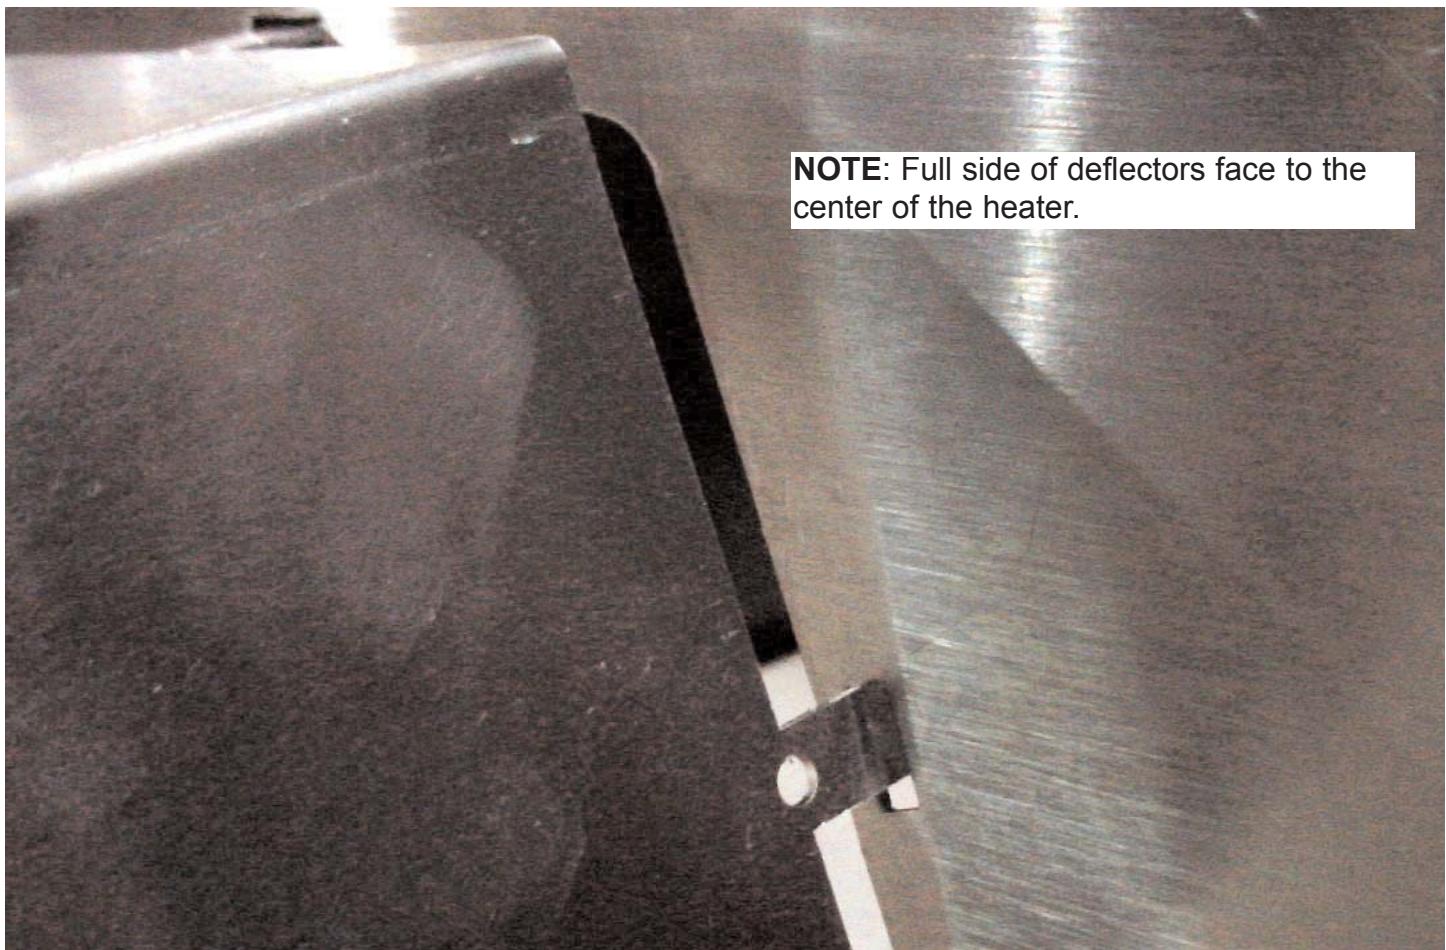

Each unit requires two Left Deflectors and two Right Deflectors

**NOTE:** Narrow, holed side of the deflectors face toward the outer side of the heater.

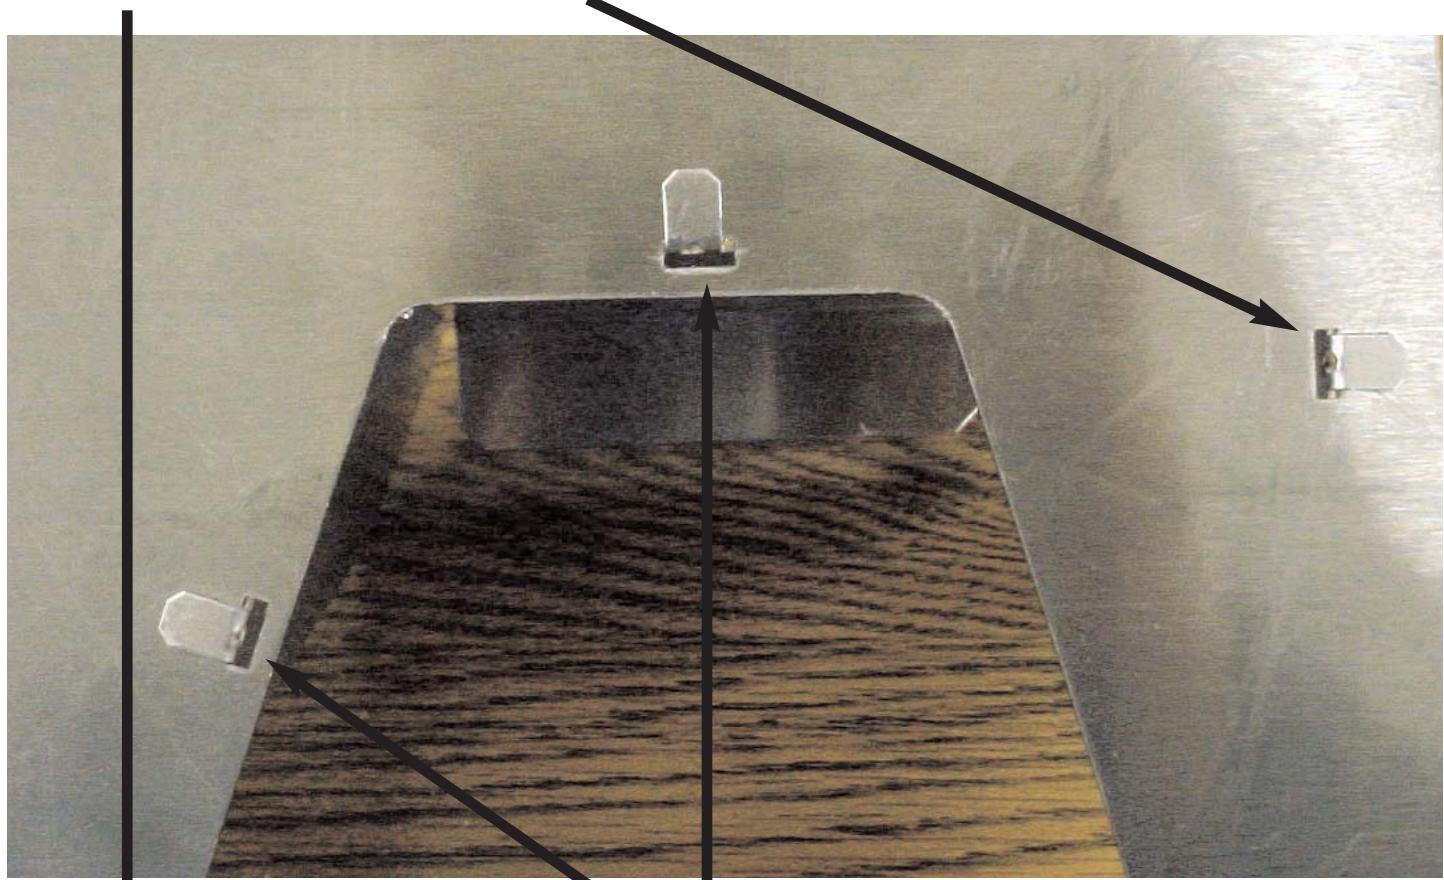

**NOTE:** Full side of deflectors face to the center of the heater.

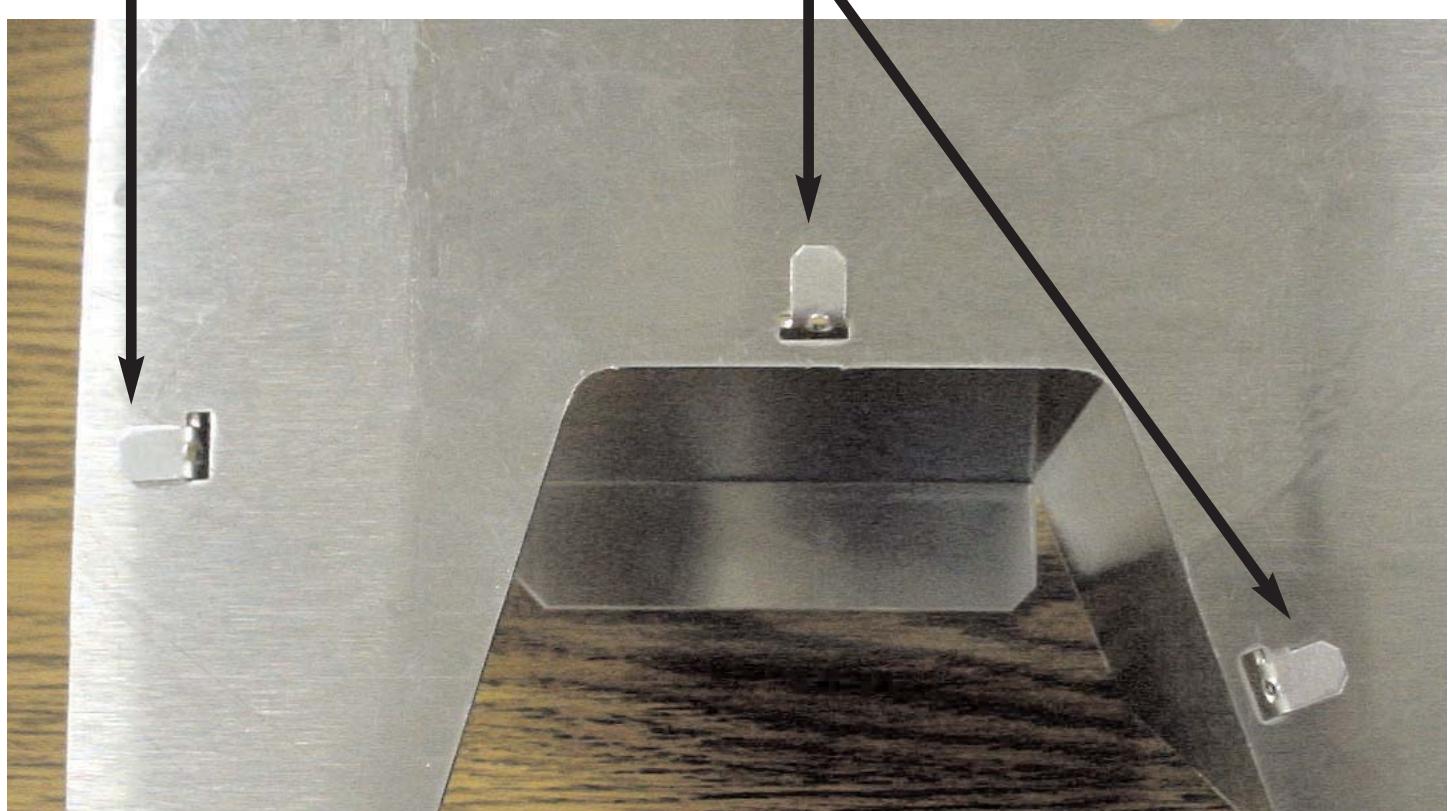

Align tabs of deflectors with slots on heater and insert tab into slots completely so that deflectors are flush against the unit.

Using pliers, bend the tabs to secure deflectors to the heater.  
Bend these tabs toward the outer edge.

Bend these tabs toward the inside.

## MAINTENANCE

Proper care and maintenance of your heater cannot be over emphasized!!

### A POORLY MAINTAINED HEATER WILL:

- Raise Operating Costs- due to poor combustion.
- Lower Air Quality
- Cause Inconsistent Temperatures
- Decrease the Life of the Heater

#### CAUTION

BEFORE PERFORMING ANY MAINTENANCE ON THE HEATER,  
MAKE CERTAIN THAT ALL POWER AND FUEL HAS BEEN SHUT  
OFF TO THE UNIT.

### MAINTENANCE PROGRAM

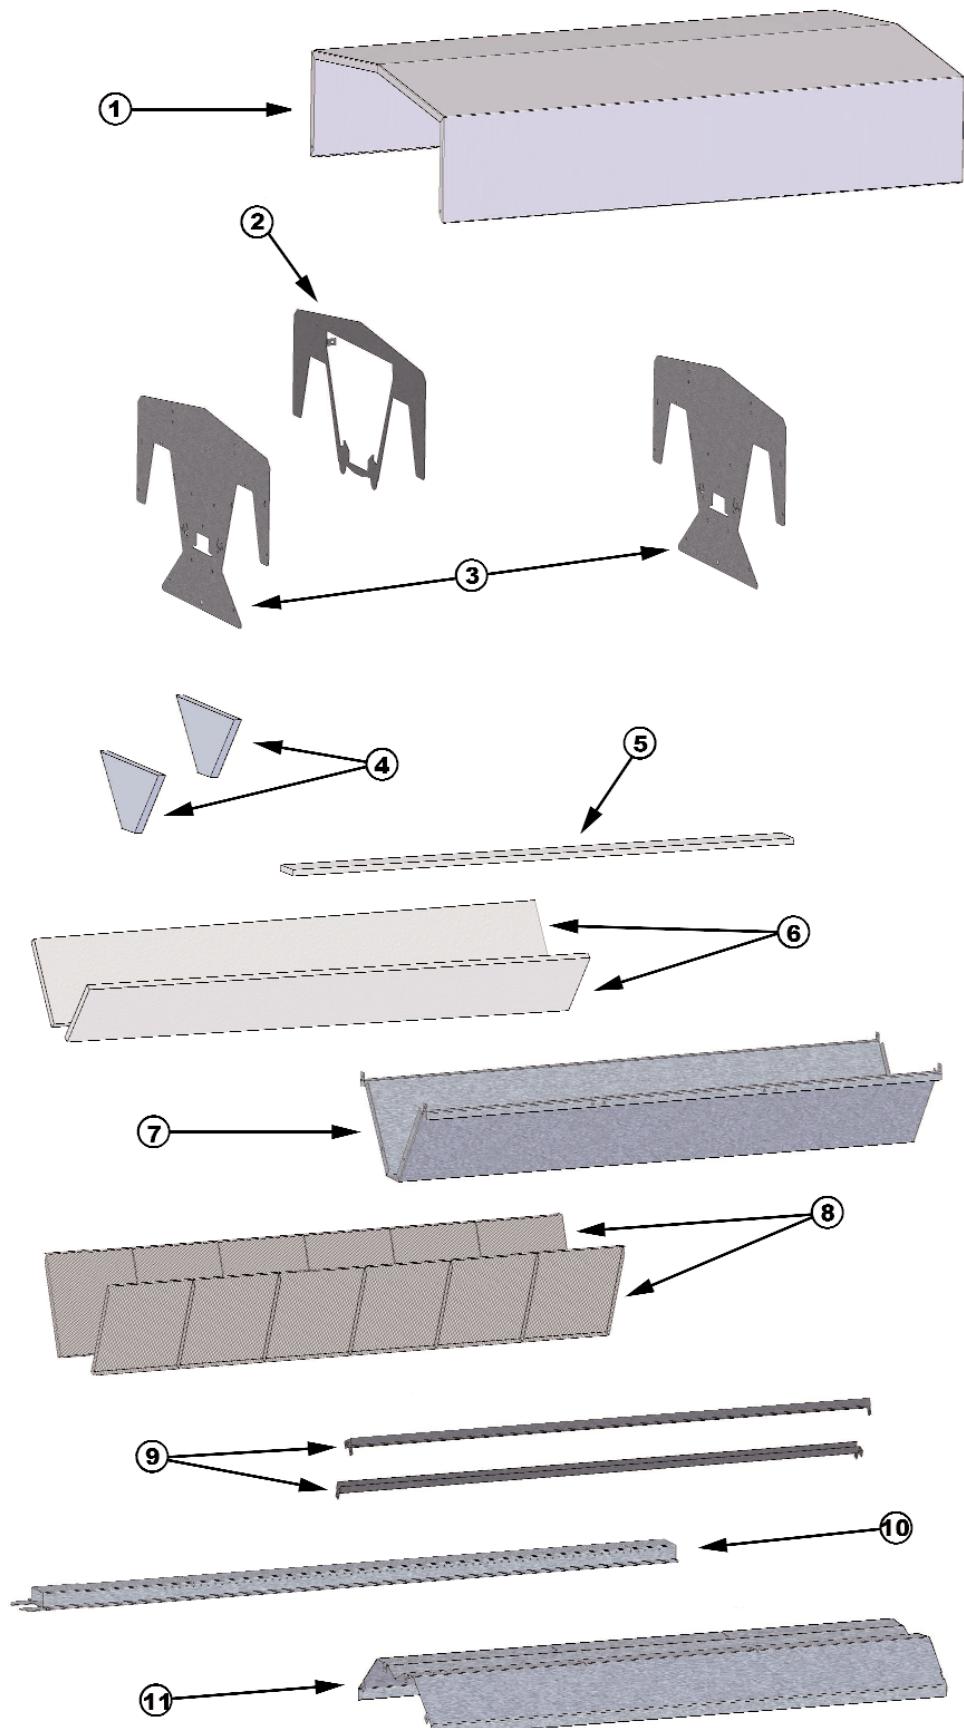

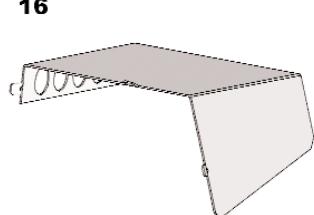

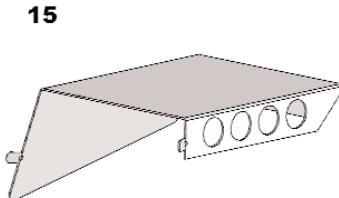

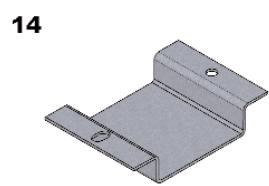

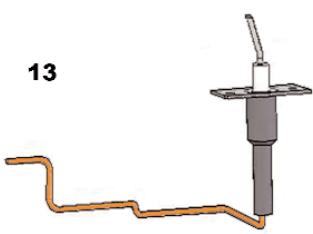

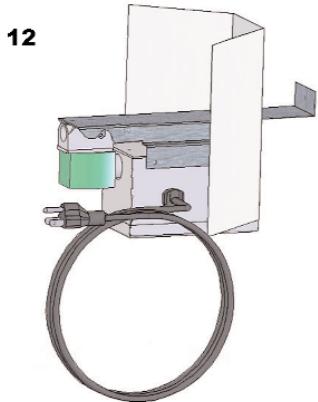

- ◆ Daily: Check burner, flames should be burning clear and blue; if not, clean as required or check gas pressure.
- ◆ Clean heater after each flock.
- ◆ Clean orifice using the CORRECT size orifice drill - 54 for LP and 51 for Natural Gas. Extreme care must be taken not to enlarge or distort the orifice openings.
- ◆ Clean dust and dirt from canopy, reflector pan, emitters and burner ports with compressed air. Blow out the inside of the burner assembly using compressed air.
- ◆ If houses are washed down, care should be taken to prevent moisture from accumulating on control valve and burner assemblies. Cover valve assembly with plastic before washing.  
After wash downs remove plastic from heater.  
We recommend that you light the heaters to dry up any excess moisture.
- ◆ For proper combustion it is important that the small holes in the emitter be clean and unobstructed. The emitter can also be cleaned by inserting a long brass bristle brush between the screens and inner cone.
- ◆ Check ignitor and burner ports for debris, wipe clean with steel wool and clear burner ports with wire.
- ◆ If heater is disconnected from the gas line, use tape to seal the open connections. This will keep moisture, dust, and insects out and prevent future problems.

**WARNING!** Never spray penetrating oil (WD-40) on the control valve. This will cause the loss of high temperature valve grease and cause the valve to leak.

Failure to follow these instructions could result in serious personal injury or significant property damage.

## **WARRANTY**

**Manufacturer** warrants each new product manufactured by it to be free from defects in material or workmanship for one (1) year from and after the date of initial installation by or for the original purchaser. If such a defect is found by Manufacturer to exist within the one-year period, the Manufacturer will, at its option, (a) repair or replace such product free of charge, F.O.B. the factory of manufacture, or (b) refund to the original purchaser the original purchase price, in lieu of such repair or replacement. Labor costs associated with the replacement or repair of the product are not covered by the Manufacturer.

### **Conditions and Limitations**

1. The product must be installed by and operated in accordance with the instructions published by the **Manufacturer or Warranty will be void**.
2. Warranty is void if **all components** of the system are not original equipment supplied by the Manufacturer.
3. This product must be purchased from and installed by an authorized distributor or installer or a certified representative thereof **or the Warranty will be void**.
4. Malfunctions or failure resulting from misuse, abuse, negligence, alteration, accident, or lack of proper maintenance, or from lightning strikes, electrical power surges or interruption of electricity, shall not be considered defects under the Warranty.
5. This Warranty applies only to systems for the care of poultry and livestock. Other applications in industry, commerce, or residential applications are not covered by this Warranty and are **strictly prohibited**. Any such use **will void the Warranty**.

Manufacturer shall not be liable for any **Consequential or Special Damage** which any purchaser may suffer or claim to suffer as a result of any defect in the product. **"Consequential"** or **"Special Damages"** as used herein include, but are not limited to, lost or damaged products or goods, costs of transportation, lost sales, lost orders, lost income, increased overhead, labor and incidental costs and operational inefficiencies.

THIS WARRANTY CONSTITUTES THE MANUFACTURER'S ENTIRE AND SOLE WARRANTY AND THIS MANUFACTURER EXPRESSLY DISCLAIMS ANY AND ALL OTHER WARRANTIES, INCLUDING, BUT NOT LIMITED TO, EXPRESS AND IMPLIED WARRANTIES AS TO MERCHANTABILITY, FITNESS FOR PARTICULAR PURPOSES SOLD AND DESCRIPTION OR QUALITY OF THE PRODUCT FURNISHED HEREUNDER.

Distributors are not authorized to modify or extend the terms and conditions of this Warranty in any manner or to offer or grant any other warranties for the products in addition to those terms expressly stated above. An officer of the Manufacturer must authorize any exceptions to this Warranty in writing. Manufacturer reserves the right to change models and specifications at any time without notice or obligation to improve previous models.

Effective 01/07
