

# CATALYST™ Whole House Control

## Easily Add Future Functionality

Let's grow together®

# NEW!

Chore-Time's CATALYST™ Whole House Control features a higher resolution 10.1 inch (257 mm) display designed to easily add future functionality. USB port enables updating and mouse control.

CATALYST™ Control connects to the Mobile Server via the Mobile app and the Broadcaster Alert System. Uses the same relay box, hardware, IO Board(s) and sensors as the CHORE-TRONICS® 3.

### Improved user interface and quality features from CHORE-TRONICS® 3

- Has all the same software features as the CHORE-TRONICS® 3 including Multiple Variable Speed Fans.
- Connects to the Mobile Server via the Mobile app and the Broadcaster Alert System.
- New higher resolution.
- 10.1 inch (257 mm) display.
- New updated look.
- New Touch Screen that works through the plastic door.
- Still designed to easily add future functionality.
- USB port for updating and mouse control.
- Outside Ethernet port.

Count on Chore-Time for experience, reliability, performance and confidence.

### We Speak Your Language

The CATALYST™ Whole House Control comes with multiple built-in languages to improve communication and efficiency. Instantly switch the display text between them. More languages are always being added.

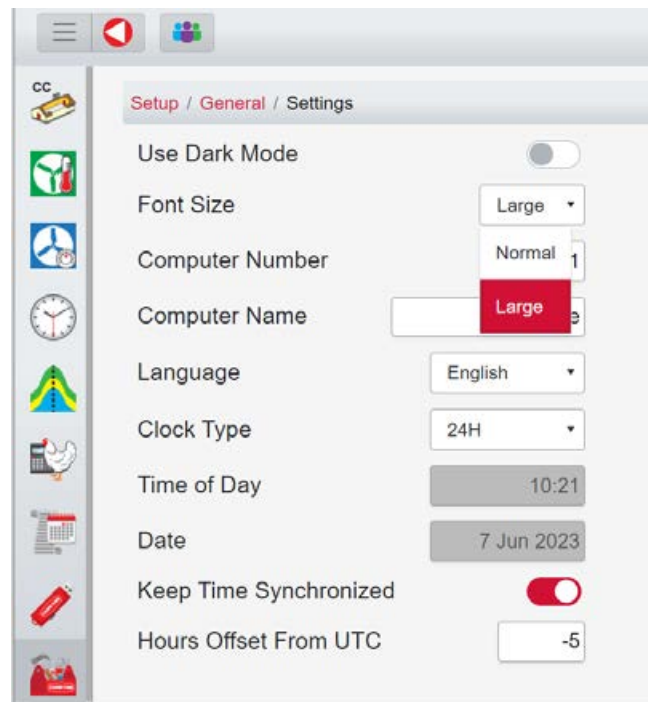

## User Interface Settings Choices

- Dark Mode - Makes it easier to read screens in certain lighting conditions.
- New Touch Screen - Allows for: Zoom in or out, Scroll and Swipe.
- Alarm Status icons - Color coded.
- Graphics and Graphs updated.
- Time Clocks - The Settings are displayed in a Clock format instead of a line format. All Time clocks can be set up to a maximum of 24 events.
- Water Increment Table - Can show hours water consumption for up to 21 days.
- Remote PC Connection - You have the ability to connect to the CATALYST™ via your PC that is connected to the local network. The PC connection is identical as being at the CATALYST™ Control.
- CATALYST™ Updating - Remote updating available.

## Support Server Tools

CATALYST™ Whole House Control makes gathering troubleshooting information easier, along with other critical control performance information.

- Debugging tool - Download Debug information that allows us to support the control if an update goes wrong.
- Service Tools - Allows the user to download the log for troubleshooting via USB.
- Control status information - Information available about the status of the control.
- Updates - Three ways to update. Update with USB, update remotely, or add update file via drag and drop.
- Restart CATALYST™ Control button.

More User Interface settings choices.

Dark Mode makes it easier to read screens in certain lighting conditions and User preferences.
